

SUGAR MIXING TANK

It can be used for mixing casein, bentonite and many products.

The only mixing tank on wheels !

Mobile, compact and efficient

Multi-functional - Gentle and efficient stirring

Patented process : fast and homogeneous mixing thanks to its unique stirring system

Made in France

FAST

This sugar mixing tank allow to melt sugar in 750 to 1 000 kg big bags in just 15 minutes.

EASY AND EFFICIENT

No need to handle bags anymore, only one person needed to load the sugar tank. No product left in the bottom of the tank in the end.

POLYVALENT

Possibility of mixing casein and keeping homogeneous even low volume into the tank.

TECHNICAL FEATURES

- Made of 316 L stainless steel : CND 17.11.02.
- 1 stainless steel millimeter-level gauge + 1 stainless-steel level tap.
- 1 DN 50 total drain pipe + ball valve.
- Stainless steel DN 40 full passage at bottom of tank.
- 4 stainless steel feet with wheels Ø 120 (2 fixed and 2 pivoting).
- 1 stainless steel horizontal Ø 30 shaft equipped with tilted hoops for stirring.
- 1 geared motor 1,1 kW output speed 70 tr/min
- 1 circuit breaker box 4A On/Off contactor

DIMENSIONS

Dimensions	7 hl	18 hl	26 hl
Length	1660	2010	2010
Width	800	1060	1370
Height	1060	1830	1980

OPTIONS

- ➡ 2 hinged covers in brushed stainless steel sheets.
- ➡ Speed variation by mechanical or electrical variator.
- ➡ Hot/cold heat exchange circuit.
- ➡ 3 models available (other formats on study).
