PRODUCT DESCRIPTION

This box has a capacity of 255 traditional champagne and 255 cremant bottles, with holding wedges for 378 37.5 cl bottles and 84 magnums.

Study for special bottles holding wedges on request.

This space-saving riddling box 255 is made for riddling in the Gyro Compact®.

Load capacity with
600 mm gravity
center : 500 kg

Max lifting height :
1600 mm

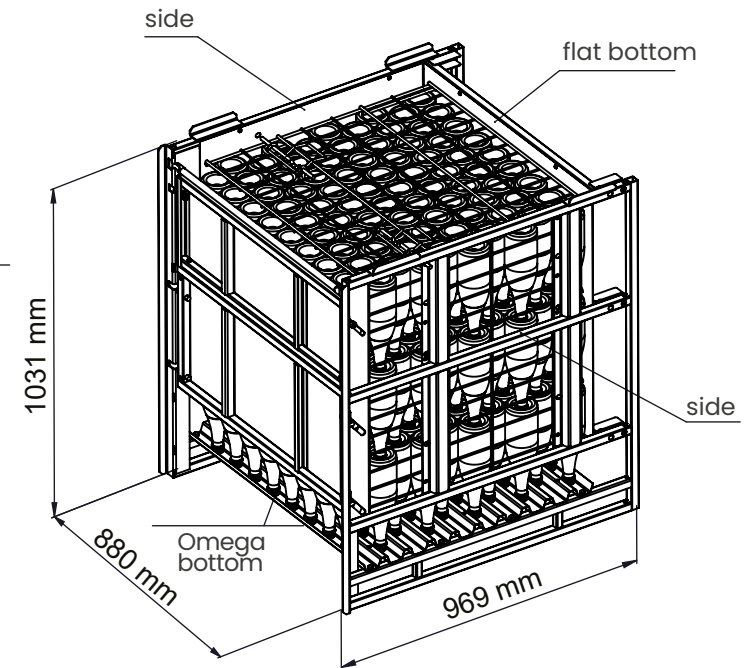

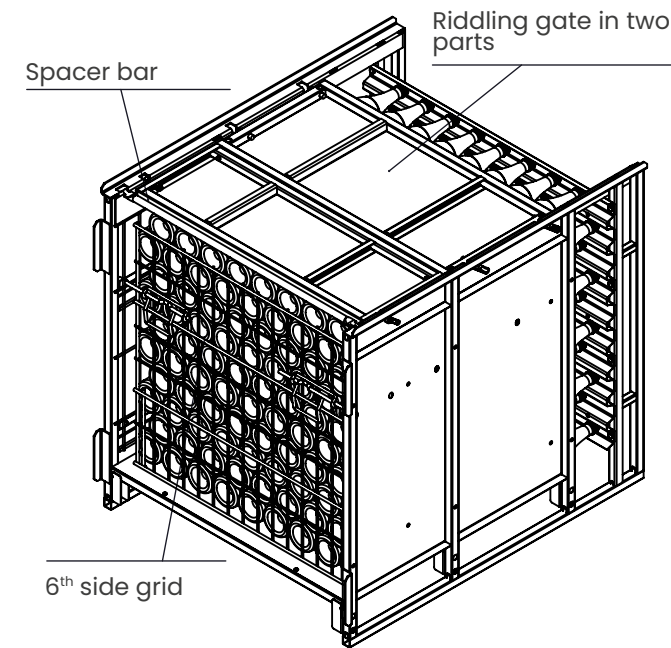

(in case of loading / un-
loading and 1/1 stacking).
For stacking above 1/1, see
the forks lifting height.

Riddling box weight : 66 kg

This weight includes the box with the door
and the 6th side grid, without spacer bar.

Theoretical weight

CONVENIENT

The interchangeable inside holding wedge makes it possible to riddle several types of bottles : traditional champagne bottles, cremant bottles, 37.cl bottles, magnums and special bottles.

FUNCTIONAL

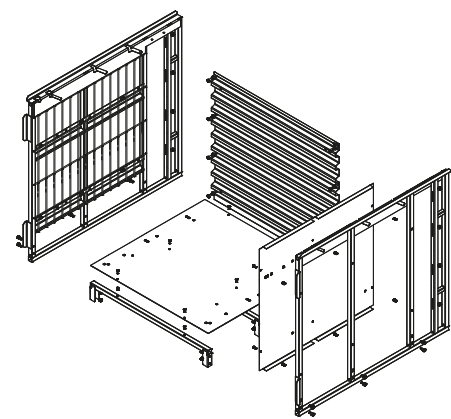

Handling with a free height manual pallet truck or forklift truck.

STRONG

The 4 dismountable panels are electro-galvanised giving the 255 box a great resistance to cellars environment.

Examples of capacities*

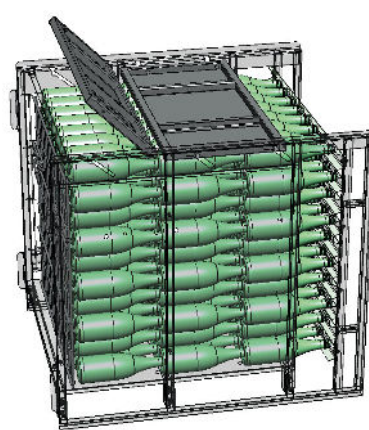

DISMOUNTABLE

The four panels of the riddling box are delivered unassembled with a set of bolts. An assembly service is proposed on request.

MODULAR

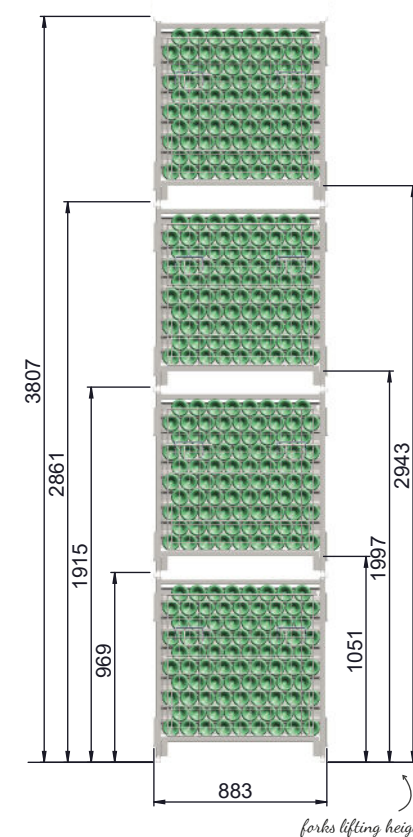

The 6th side grid can be adjusted according to the number of lays of bottles. Thus allowing to riddle only one lay of bottles.

SECURED

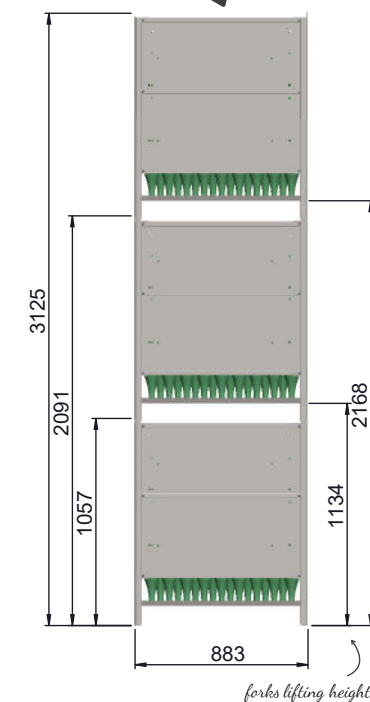

The riddling gate comes in two separate parts to hold the bottles during riddling and to easily unload the bottles.

DELIVERED UNASSEMBLED. ASSEMBLY SERVICE OF THE RIDDLING BOX ON REQUEST. SPACE-SAVING IN FREIGHT.

THE RIDDLING BOX 255 WORKS WITH THE GYRO COMPACT®.

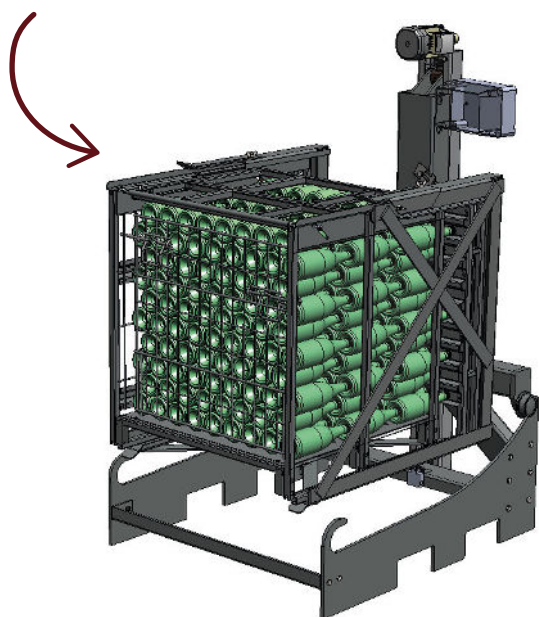

Gyro Compact®

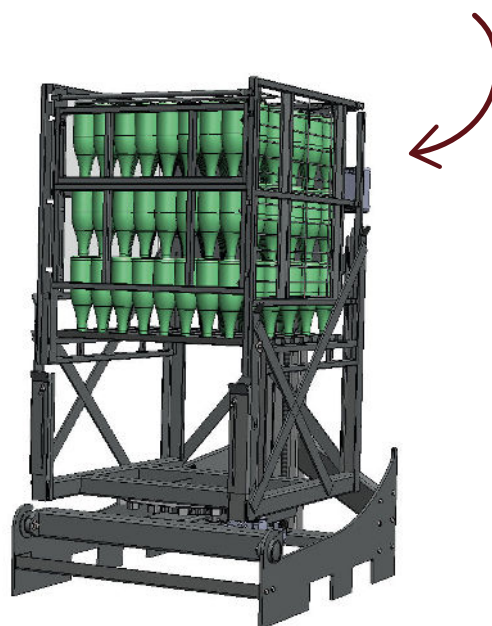

Given its compact size and mobility, this Gyropalette® is made for small cellars.

- ➔ **COMPACT SIZE** : the Gyro Compact® requires limited space, it is suited to all type of cellars. The unloading height is less than 2 meters.
- ➔ **EASY MOVING** thanks to the forklifts passages enabling the Gyro Compact® to be transported from the side or the front on manual pallet truck.
- ➔ **EASY INSTALLATION** : a single phase 230 V is enough to make it works.
